

No Mow May

Barbara Huibregtse • Morrill Road, Danville

Announcement

Looking for a way to help the planet, native pollinators, and save gas, time and money? Participate in No Mow May and allow your lawn to flower and provide forage for native bees as they emerge from hibernation. Dedicate a portion or all of your lawn to No Mow May and see what happens.

All you need to do is volunteer to NOT mow all or part of your lawn from May 1 – May 31st. In order to understand the effect of not mowing, the Danville Conservation Commission would like to collect information from participants, specifically, what did your lawn look like at the start and the end and how much area dedicated to not be mown. To register, email conservation@danvillevt.gov, and be sure to put "no mow May" in the subject line. Let us know how much space you are dedicating to no mow May. If you can, a photo of your lawn at the beginning and end of May would be great to learn how many flowers result, and help us understand the effects on the lawn. . Signs to note your participation are available for printing at : <https://www.xerces.org/publications/other/no-mow-may> and more information is available at the Town Website: <https://danvillevt.gov/wp-content/uploads/2022/04/No-Mow-May-announcement.pdf>
