1. Issues and Information (All)

(a) ARPA Funds – possible projects

The purpose of the meeting was a working session to review projects that were identified and prioritized through the ARPA Survey conducted in 2022. Discussed projects and organized a spreadsheet with information on estimated costs, possible funding sources, and local and state contacts.

Next step will be to send the spreadsheet to Katie Buckley at VLCT for her review and input. Once her comments and suggestions are added, information will be presented to full Selectboard to determine next steps in the process.
