

Danville Dog Park Committee

August 26th Site Visit Recap

We met at the site of the proposed dog park. Present: Alison Low, Chelsea Hewitt, Gary Farrow, Polly Joncas, and Roger Sheldon of H2O

Roger explains the function of the lagoons and the concerns about keeping people out, which was related more to aeration than to contamination.

We walked the site, including the original access point, which is within site distance of the trail entrance. We identified a second site, further along the trail, which had a lower elevation and a shorter distance to the fenced area. This resulted in two potential figurations, which were marked by hand on a ledger-sized site map to be shared with Tim Ruggles.

The meeting adjourned at 7:00 p.m.

Next meeting is September 10 at 6:00 pm.

Respectfully submitted,

Alison Low
