

My name is Glenn Herrin; I am finishing my second one-year term on the Selectboard and running again for another year.

I am a lifelong Vermonter. I grew up in Randolph, spent 20+ years in the Army, and in 2009 I retired to Brattleboro (it made sense at the time) with my wife, Kathy. We moved here in 2015 - I love Danville's size, location, history, and most importantly the people: a good mix of families that have been here for generations and people who have chosen to live here. We have two daughters (now out of school) plus three dogs, three cats, and a horse. I work part-time for Vermont Emergency Management (VEM) as a planner and utility staffer. I served on the Planning Commission from 2016 to 2024 and I am also the town Emergency Management Coordinator.

I learned a lot (more) in my second year on the board - mainly correcting things that I thought I knew but didn't fully understand. I don't have any major personal priorities for the Town - I support the ongoing projects and initiatives we're working through and generally just want to help keep things running as openly, smoothly, and efficiently as possible. Thank you.
