

My name is Alison Low, and I am just finishing a second one-year term. I would like to run for the open three-year seat on the selectboard.

My two years with the board have been an intense learning experience. Thankfully, the Town is blessed with so many dedicated individuals who are willing to generously share their expertise and insights.

While my overarching goal is to support the stability and efficacy of our Town's day-to-day operations, I am particularly interested in supporting the following initiatives:

- Completion of the shared-use path and sidewalk from the area from Hill Street Park to the Town fields on Peacham Road;
- Development of the vacant lot alongside the Town Hall as an attractive and functional multi-use parking lot, as well as continued investments in the Village as identified in last year's pop-up charrette.
- Clarity on the future viability of our small but mighty waste water system serving the Village;
- Completion of the Danville Dog Park (now that our site plans are complete!) This will involve more fundraising, for sure.
- Safe walkable neighborhoods. Many of our residents are rightly concerned about speeding and the devastating impact it has on our collective sense of trust and community. This is a complex issue that will require increased enforcement, a full gamut of traffic calming initiatives, and overall awareness raising.

I moved here in 2000, and my son, Ross, attended the Danville School, graduating in 2017. For most of my time in Danville. My day job is at the Regional Planning Commission, where I have worked for more than 20 years.

Thank you for giving me the opportunity to serve this amazing community.
